EDMONTON REPORT

By Donald F. Smith
Special Correspondent

EDMONTON — A man purchased a fairly large office building, known as the Alberta Block, on Edmonton's main street, for \$175,000 on June 5, 1952. The following day, he sold a three-quarter interest in that building to a friend for \$175,000.

The original purchaser retained a one-quarter interest, raising the value of the building to \$233,000 — an increase in value in one day of \$58,000.

Its sale to the provincial government in August, 1952, for \$225,000, was one of three real estate deals questioned by Calgary Liberal Hugh John MacDonald in the Alberta legislature last week as he requested an investigation into the handling of provincial money. He charged there was waste and extravagance.

His request that the investigation be made prior to approving any estimated expenditures for the coming fiscal year was ruled out of order by the Speaker, Hon. Peter Dawson (SC — Little Bow).

Mr. MacDonald's contention was there had been a \$50,000 profit on the building in three months. The details of the original purchase and sale of a three-quarter interest were given to the house by Hon. C. E. Gerhart, provincial treasurer, later in the week as he defended the record of the public works department in land dealings.

The treasurer said the Liberal member had neglected to mention the transaction which took place between the time of the original purchase and the sale to the government. He suggested the higher price resulted from the cost of breaking leases held by tenants, commissions on the sale, architects' fees, legal fees and the cost of financing, in the preparations of the two men to turn the building into a hotel. But Mr. MacDonald contended these costs have nothing to do with increasing the value of the building.

The reason the men sold the building, according to Mr. Gerhart, was due to pressures of business on one of the men to put money into improving a Calgary hotel, of which he is proprietor.

Mr. MacDonald also had questioned why there was a \$12,000 profit in six days on land sold to the government for a Calgary liquor store. The treasurer reported the liquor control board had sought in vain for property in the selected area and finally decided to buy the land in question.

It was held by a used-car dealer under a lease-option calling for a selling price of \$35,750. Mr. Gerhart said, and he was asking \$54,000. The liquor board offered a cash price of \$46,000 which the option-holder accepted. He exercised his option and the transfer went through the land titles office six days before the transfer to the government.

The third deal, brought up by the Liberal member, involved the proposed expenditure of \$28,440 (a \$16,180 increase over last year) for the maintenance of an Edmonton building no longer owned by the government. He had also noted the government bought the building in 1949 for \$75,000 and last year sold it for \$64,000.

The government knew the building wasn't a good one when it was bought and it was expected to depreciate heavily, Mr. Gerhart said, but office space was in urgent demand. Last year when it was sold by tender to the highest bidder, the government retained the right to rent the quarters for \$26,586 a year, he said.

Those were the explanations given by Mr. Gerhart as he ended the debate on the budget but it was not expected to be the end of questions about these transactions and the Calgary jail-land dealings. The public accounts committee, which has authority to call witnesses and question them under oath, was to begin sitting this week at the request of the Liberals.

In other matters during the week, the government introduced legislation, still to be finally approved, to allow marketing boards for a variety of agricultural products, excluding cattle and sheep. Social Credit members also rejected a request by testifying J. Percy Page, Edmonton Conservative, supported by the other members of the opposition, for a royal commission on liquor. Premier Manning said the time wasn't right because the commission should be able to study the results of the preventive, educational and rehabilitation programs of such

Second Annual Institute

Associations represented were Carmanagay, Champion, Miloville, Arrowwood, Brant, Mossleigh, Lomond, and Vulcan. Attendance at this second annual conference was more than double that of last year.

J. R. Chapman of the Vulcan Church of Christ gave the invocation, and J. M. McKay, chairman of the school committee of the County, welcomed the representatives. Reports from the executives of all the Associations were read. A. L. Schrag, Sup't. of Schools, spoke on preparing the pre-school child for entrance to school.

Mrs. H. T. Robertson, president of the Calgary Council of Home and School Associations, outlined the purpose, duties, and responsibility of a council.

The guest speaker, Dr. Aitkenhead, Faculty of Education, Calgary Branch, University of Alberta, gave a paper on "Your Children and Young People."

Suggested promotion policies in Alberta, to affect Grades I to VIII, were discussed. Mrs. Schrag led a panel discussion on this topic. Members of the panel were J. T. Clarke, Dr. Aitkenhead, and Mrs. F. Durston.

Mrs. S. Manning, president of the Vulcan Home and School Association, was in the chair at both morning and afternoon sessions. Lunch and tea was served by the Vulcan Home & School Assoc. During the tea hour Dale Wyatt of Arrowwood and Mrs. Baldwin of Carmanagay favored the gathering with a violin and piano solo respectively.

BRITISH MERCHANT NAVY MEMORIAL

Twenty-four thousand men of the British Merchant Navy and fishing fleets who gave their lives during the 1939-45 war and have no known grave but the sea, are to be commemorated by a Merchant Navy Memorial on Tower Hill, London. The memorial is an extension of the 1914-18 memorial and will take the form of a garden, on the walls of which will be fixed bronze panels bearing the names. Two sculptured figures of sailors, the work of Mr. Charles Wheeler, R.A., will stand at the entrance to the garden.

Surprise Party For 56th Anniversary Of Vulcan Couple

Some twenty friends of Mr. and Mrs. Barney Lommatzsch, gathered at their home for a belated surprise-anniversary party, Tuesday, March 15. Actually this well-known pioneer couple had the honor of celebrating 56 years of married life, January 17. But at that time Mr. Lommatzsch was confined to the local hospital and the party, planned by friends of the Church of Christ in Vulcan, was postponed.

The fact that the party was two months late did not deter the guests of honor nor their friends from thoroughly enjoying themselves. A humorous mock-wedding, with the bride and groom of more than half a century, in their original roles, and Jack Deans "official" singing, was the source of much merriment. Games and visiting were enjoyed, with little Michael and Joe Denbigh, grandsons of the "bride" and "groom" delighting everyone with their singing and accompaniment on their toy instruments.

A presentation was made to Mr. and Mrs. Lommatzsch by Mrs. D. B. Smith, on behalf of those assembled. Mrs. Smith expressed the wishes of all for many more happy anniversaries.

Mr. and Mrs. Lommatzsch, 73 and 76 respectively, were married January 17, 1899, at Kilbourne.

Regular Meeting Legion Auxiliary

The March meeting of the Ladies Auxiliary to the Canadian Legion, held last Wednesday in the Legion Hall, was well attended. Mrs. Marion Carruthers, the president was in the chair and conducted the meeting, opening with the Ritual, and the Prayer, read by Mrs. C. Andrews. Mrs. J. Marshall was standard bearer.

Correspondence was light and dealt largely with routine matters. Committee reports were received and seven applications for membership were presented, and approved. Candidates are to be at the next general meeting for initiation.

Jack Moffitt, Legion secretary, kindly answered a number of questions dealing with membership privileges and similar matters.

Further plans were made for the Easter Tea and Bake Sale. At the conclusion of the business session a dainty lunch was served by a committee.

Expansion of Canadian manufacturing created 34,300 new jobs in 1952, 22,000 in 1953, 16,200 in 1954.

ELECTRIC SERVICE LEAGUE PRESIDENT

W. E. ROSS

W. E. Ross, Director of Public Relations and Advertising, Calgary Power Ltd., Calgary, was elected President of the Electric Service League of Alberta at the annual Directors' meeting, March 17.

Mr. Ross, who has been associated with Calgary Power for the past 25 years, was former Manager of the Prairie Power Company in Regina, and also General Superintendent of the Newfoundland-Light & Power Company at St. John's, Newfoundland. He has had considerable experience in all phases of the electric utility business.

Mr. Ross stated that the Electric Service League of Alberta was formed in the interests of the general public. The aims and objectives of the League are to promote adequate wiring in homes and commercial establishments. Electrical living is just coming into its own and each year new appliances to assist the housewife in making the operations of the home more efficient and pleasant are being invented. Homes wired to "Red Seal" specifications advocated by the Electric Service League assure the home owner that the wiring in the home will be capable of carrying the electric load required to serve all the appliances the home owner has now and may expect to get in the future.

Basement Auditorium

County Plans Two-room Addition Lomond School

Vulcan County councillors held regular meetings last week, and dealt with a number of matters pertaining to schools and general county business. At the school committee meeting held on Monday, the principal item of business was the discussion of the proposed addition to the Lomond school. A meeting with V. E. Meech, of Meech Mitchell & Associates, Architects of Lethbridge, discussed plans for a two-room addition with a full basement to be used at present as a small auditorium, and arranged so that it might be converted into a class room if the school population increases in the next few years. Included in the plans is the drilling of a well at Lomond school site and, if sufficient water is obtained, a pressure system and water toilet facilities installed. Cost of the addition and improvement would be approximately \$30,000.

School committee recommended that Lot 14, Block Two, Lomond be purchased from the Provincial Government for the sum of \$4,000. This property is the dwelling formerly used by the special areas board and will be used as a teacherage in the future.

The committee authorized the purchase of a tape recorder for the Junior-Senior High School. Students from the grade XI class donated the sum of \$100.00, being part of prize money for first prize in the Provincial T.B. Essay contest in grade XI towards the purchase price. An application from a number of rate-payers in the Blusson school district who claimed ownership of a piano which was being used in the Champion school for a refund of an amount calculated to be its value was made to the committee. The amount of refund to be turned over to the Champion Public Library. This matter was considered and the sum of \$175.00 voted for the purchase of the piano.

At the County council meeting held on Friday a by-law authorizing the purchase of a 5-ton tandem drive Mercury truck was passed. Purchase price is slightly less than ten thousand dollars.

Councillor Donald B. Smith reported that he would not be able to sit as a member of the forthcoming Court of Revision Assessments. Ivan Haga was appointed to the Court to replace Mr. Smith.

The business meeting followed with the president in charge, and roll call was answered with 10 members responding with a Bible verse.

An offering was received for the Gladys Ward Fund. It was decided that \$5.00 a month from the missionary offering be sent to a different missionary each month.

It was learned that Rev. Lang, a missionary from Germany, to Japan, is to be the guest speaker at the convention that takes place in April.

At the February meeting Miss Flo. Dixon was the speaker. She also showed slides of her work in Africa.

The meeting was closed with prayer, and lunch served by the hostess, assisted by Mrs. Ed. Hartung.

The executive met and appointed the following secretaries: Spiritual Life, Mrs. A. Hill; Missionary Education, Mrs. W. Beckner; Christian Social Relations, Mrs. J. Schierman; Young People's Work, Mrs. E. Hartung; Missionary Education for Children, Mrs. A. Kai-ser; Mrs. C. Budd is the news reporter.

The Service Board passed the following Motion: That this Service Board authorize, in accordance with subsection two of the regulations, the vaccination of heifer calves over the age of eight months.

Although a complete report of district winners of the FUA and WUA bonspiel held at Lethbridge this week is not yet available, first prizes in the first three events were all won by rinks representing Redlandview Local and the Vulcan district.

First prize in the first event was won by Bev Banks (skip), Warren Banks, Vernal Haga and Victor Rushfield.

Should Make Gas Survey

Information received by the Town of Vulcan from the Canadian Western Natural Gas Co. indicates that the Gas Co. has not, as yet, given any serious consideration to servicing towns on this line with natural gas. The new feeder pipeline which will pass south of Carmangay improves the chances of Vulcan getting the gas service the Gas Co. says, but the deciding factor will still be whether or not it is economically possible.

The Village of Champion (and Carmangay, too, we presume) is also vitally interested in this matter and no doubt has received the same information from the Gas Co.

It should not be a different or lengthy job for the Gas Company to determine just how many consumers would be needed to make it possible to bring in natural gas to these three towns. If a survey could be made and some facts and figures presented it would be a step in the right direction.

Schools Go Forward

While they do not command the publicity which is afforded industrial growth and the forward march of national progress, Canadian schools are staging a march of their own and it is more important and more far reaching than any other of the many manifestations of progress in our country today. In 1946 Canada had about 2,100,000 children from 5 - 14 and about 1,000,000 teenagers from 15-19 years of age. It is estimated that by 1961 these figures will rise to 3,800,000 and 1,440,000, not only because of increasing births and new Canadians but because more children stay at school longer.

Municipalities are inclined to shake their heads and worry about the expense. Provincial governments are urged to face the problem and take up their share of the financial arrangements. Building trades and construction firms look kindly to this avenue of more work for their men and suppliers. And in the midst of the arguments everyone forgets all too often to remember that this largess of children in our national life really constitutes riches for which the controlled states of Europe have been ready and willing to pay a high price throughout the last half century.

A nation rises over the graves of its great men and on the hope of more to come. Canada's teachers and Canada's pupils will tell the story of tomorrow for the pupils of the day after tomorrow. So we must look this problem squarely in the face.

In the next few years we will need more schools. They will be a capital investment not a current cost. We will need more teachers and there will need to be more incentive and more opportunity for men and women who are willing to make this their life's work. Teachers' salaries have come into line throughout the past few years but there is still a great shortage of adequately trained teachers for both the public and high schools. The National Education Week Committee says, "The qualifications for teaching must be raised. Much evidence points to the fact that more persons will be attracted to teaching as a career if the qualifications are raised — not lowered." This is a fact to face today.

WHY YOU SHOULD TREAT SEED GRAIN WITH "CERESAN" SEED DISINFECTANT

Each spring seed and soil-borne diseases, in the form of root-rot, smuts and seedling blights, reduce the yield of the crop you plant. The best and simplest way to protect the seed you plant and ensure maximum yields is to treat your seed grain before planting with "Ceresan" seed disinfectant. "Ceresan" prevents smut in wheat, oats, flax, and covered smut in barley. "Ceresan" protects seed and seedlings from root rots, seedling blights and decay.

**"CERESAN" IS A SUPERIOR SEED DISINFECTANT
BECAUSE IT PROTECTS SEED IN TWO WAYS:**

ON SEED—VAPOUR ACTION

On application, "Ceresan" gives off a highly effective mercury vapour which destroys fungi and bacteria on the surface of the seed and penetrates into cracks and crevices in the seed to give maximum disinfection. This volatile vapour action, in addition to direct contact, enables "Ceresan" to do a superior seed disinfecting job.

IN SOIL—PROTECTIVE FILM

"Ceresan" forms a protective film which protects the seed after planting from the soil-borne fungi which cause seed decay, root-rot and seedling blight. This protection means higher germination and vigorous emergence that results in thicker, stronger stands which produce higher yields.

HOW TO TREAT SEED WITH "CERESAN" SEED DISINFECTANTS

HOME TREATMENT

You can apply "Ceresan" by a hand method or many users prefer to apply it dry in a dust-type automatic treater. If you have a slurry treater, "Ceresan" M2X is especially formulated for simple slurry treating. "Ceresan" is available at your local farm supply store.

COMMERCIAL TREATING

In many localities there is a commercial seed treater who can treat your seed grain. Simply ask him to treat your seed with "Ceresan" M2X or Du Pont Liquid 244 seed disinfectant. He can give you thorough seed protection for a very small cost per bushel.

HIGHWAY CONSTRUCTION IN ALBERTA

Alberta's first four lane super highway is now under construction. Located between Crossfield and Bowden, this 29 m/e stretch will consist of four 12-foot lanes, two asphalt-bound shoulders and a 20-foot centre strip dividing the two flows of traffic. The new highway will rank with the finest ever built in Canada.

All main highways in Alberta are being built on a four-year schedule. The first year solves the problems of location, purchasing of right-of-way, design and the building of the sub-grade. Drainage is of major importance and this is given close attention when actual construction is begun.

Highways must be built from the bottom up, and so clays going into the sub-grade must be carefully selected. Continual tests are run in the field laboratory to check the stability of this basic material.

As it takes shape, the sub-grade is wetted down and compacted with sheepfoot packers and heavy rollers. Ditches, shoulders and grade are fine graded, and first course surface gravel, again carefully selected, is applied. The new highway is then put into use over winter.

The second year of the schedule calls for repairing any failures that might have been caused by the frost action or traffic. After this, a stabilized base course of screened gravel is spread to a depth of five or more inches. Two more layers of crushed gravel come next, each heavily compacted, the latter consisting of asphalt-bound crushed rock, bring the total thickness of the base course to nine inches or more.

At the beginning of the third year, any further weaknesses are corrected and a coat of asphalt is applied. After this comes the hot plant mix of asphalt and sand. A ribbon of the mix, three or four inches in thickness, hot to touch and smooth as a table, is rolled into place at the rate of one to two miles per day. A few hours after the new surface has been laid, it is ready for traffic.

The fourth year of the schedule followed in Alberta brings the application of the seal coat. This consists of a light layer of asphalt and rock chips rolled into the surface to give it greater durability and traction. When lanes are marked and additional guide posts and markers erected, the new highway is completed.

Alberta now has more than 1,500 m/e of hard-surfaced highways, approximately 20,000 miles of gravelled main and secondary highways and district roads, and more than 30,000 miles of graded roads which are still to be gravelled. Engineering skill and knowledge behind the construction and maintenance of this vast system are the most expert obtainable. Safety and endurance are built into every mile of road, and the search for better methods never ends.

Safety Sam Says...

Taming Lions is no trick...

compared to speeding when it's slick!

We'll bet even a lion-tamer wouldn't consider speeding over slippery roads. Because if he did, his chances of living long enough to do any more lion-taming wouldn't be so good. Just like your chances of doing any more of whatever you like to do wouldn't be so good. It's a thought to consider, what with Winter all around us.

No other gas pedal
gets action like this!

THIS PEDAL does more than just feed gas to an eager and high-powered V8 engine.

When you give it the extra nudge that moves it beyond the full throttle position, something happens that never happened before in an automobile.

You hear a businesslike purr, which tells you that twenty power vanes, deep inside the 1955 Dynaflo Drive,* have changed their pitch—just like the variable pitch propellers on a modern airliner.

And with the same result in the way you get-up-and-go, with a safety-surge-of-power for pulling out of a tight spot on the highway.

Words can't describe it. It's a new sensation—something you simply must try for yourself.

There's nothing like it on the 1955 new-car horizon.

Fact is, there's a lot to see at your Buick dealer's.

There's fresh new styling. There's higher horsepower in every Buick V8 engine. There's a new Airpower carburetor. And there's good old-fashioned

integrity in every nut, bolt and rivet. But, this year, don't simply make a visit to the showroom where these trim and thrilling new beauties are on display.

The smart thing to do—if you want to know what's what in new automobiles—is to get behind the wheel of a 1955 Buick and drive it. How about doing that soon?

ARROWWOOD

The Arrowwood Booster Club held their regular meeting on March 15 at the home of Mrs. Bill De Witt with a good membership present. It was reported that approx. \$260.00 was cleared at the Amateur Show and Dance held the previous week. It was decided to purchase extra cups and a boiler and the sum of \$200.00 was donated to the Hall Board, with which to equip the new hall kitchen with propane stoves. Following the meeting a delicious lunch was served.

The Home & School held their regular monthly meeting last Tuesday night, with 40 members present. Business meeting was held and the highlight was a talk given by Dr. Rowland of the Foothills Health Unit on "General Health Aspects of the School". It was voted to send a delegate from the organization to the Home and School Convention to be held in Banff and the choosing of a delegate was left in the hands of the executive. Following the meeting lunch was served.

A farewell party was held in honor of Mr. and Mrs. Don Grainger and family on Saturday night after the show. The evening was spent in dancing and after a lunch was served by the ladies of the Community Club, a beautiful lamp was presented to the departing guests.

Joan Leslie spent the weekend at home.

MAJORVILLE

The March meeting of the F.W. U.A. met at the home of Mrs. Ross Bertrand, with 16 members and one visitor present. Correspondence was read and instead of selling bricks for the building fund the sum of ten dollars was voted to be sent to Edmonton for the fund.

A discussion on whether to canvass for the cancer fund this year ensued and as there was some opposition to taking on the drive this year a vote was taken and resulted in a very definite nay.

Several committees were appointed by the president, and this it is hoped will take some of the load from the executive.

Mrs. M. Clemmons read the bulletin in the absence of Mrs. Eartsch who was unable to attend the meeting.

The bulletin for March is on horticulture and several members exchanged slips, plants and seeds.

The coming conference was discussed and a committee was appointed to try to find an organization to cater for that day as it is not easy to prepare and serve dinner and also participate in a conference. Members are willing to help provide some of the food.

Mrs. Henry won the tea raffle. The next meeting will be at the home of Mrs. Wayne Monner when it is hoped that Eva Jacobson who won the high school public speaking contest will be able to attend and give her speech.

The lunch hostesses were Mrs. Vic Bertrand and Mrs. Ted Kiemel and assisted by Mrs. L. Moner served a lovely lunch.

Friends will be sorry to know that Mrs. Hellevang, a former neighbor, was a patient in a Vancouver hospital where she underwent an operation. At last report she expected to leave the hospital in a day or two so is likely back at her home in Ladner, B.C., by this time.
